

Mohammad Amer

Microsoft MVP | Azure Developer | Microsoft 365 | Technical Lead

SUMMARY

I have been working for more than ten years of combined experience with .NET and SharePoint technology implementations. I find great pleasure in leveraging Microsoft’s cutting-edge technologies to create solutions that empower individuals and cultivate community engagement. With a strong foundation in .NET and SharePoint, along with expertise in Microsoft 365, Azure, and the Microsoft Bot Framework, I have developed a diverse skill set. My experience includes crafting highly tailored applications for diverse industries and seamlessly integrating them with various systems. As a proficient solution lead, I excel in global collaboration and team motivation. Moreover, I actively contribute to open-source initiatives. Recently, I embarked on a blogging journey, focusing on SharePoint and Microsoft Teams development.
